#### INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

| Applicant's or agent's file reference PALGE04057  | FOR FURTHER ACTION as  | see Form PCT/ISA/220<br>well as, where applicable, item 5 below.                       |  |  |  |
|---|--|--|--|--|--|
| International application No.<br>PCT/KR 2004/002379   | International filing date (day/month/year) 16 September 2004 (16.09.2004)                            | (Earliest) Priority Date (day/month/year)<br>23 October 2003 (23.10.2003)              |  |  |  |
| Applicant  LG ELECTRONICS INC.  |  |  |  |  |  |
| This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.                |  |  |  |  |  |
| This international search report consists of a total of <u>5</u> sheets.  It is also accompanied by a copy of each prior art document cited in this report.   |  |  |  |  |  |
| Basis of the report     a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. |  |  |  |  |  |
| L.I The international s to this Authority ()  | earch was carried out on the basis of a transla<br>Rule 23.1(b)),                                    | tion of the international application finnished  |  |  |  |
| b. 🔲 With regard to any nucleotide  | and/or amino acid sequence disclosed in the  | international application, see<br>confinuation of this first sheet.                    |  |  |  |
| <ul> <li>Junity of invention is lackin</li> <li>With regard to the title,</li> <li>the text is approved as subm</li> </ul>  | by this Authority to read as follows:  | heet)  |  |  |  |
| the text has been established,  | according to Rule 38.2(b), by this Authority a<br>thin one month from the date of mailing of thi     | is it appears in the continuation of this first so international search report, submit |  |  |  |
| as suggested by the applicant.  | because the applicant failed to suggest a figure<br>because this figure better characterizes the inv | <u>.</u>   |  |  |  |

International application No. PCT/KR 2004/002379

#### Continuation of first sheet

Continuation No. IV:

Text of the abstract

(Continuation of item 5 of the first sheet)

A window type air conditioner comprises: an indoor unit (20) mounted inside a case (10) positioned at the indoor side thus to be heat-exchanged with the indoor air; an outdoor heat exchanger (32) mounted inside a case positioned at the outdoor side thus to be heat-exchanged with the outdoor air; and an outdoor cross flow fan (36) for generating a blowing force so that the outdoor air can pass through the outdoor heat exchanger and for sucking the outdoor air in a circumferential direction thereof and thereby discharging the outdoor air in the circumferential direction thereof. According to this, noise is lowered, the air volume lowering due to a channel resistance is prevented, and the entire size of the air conditioner is minimized.

International application No. PCT/KR 2004/002379

#### A. CLASSIFICATION OF SUBJECT MATTER

IPC5: F24F 1/02 (2006.01)

According to International Patent Classification (IPC) or to both national classification and IPC

#### B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols) IPC8: F24F

Documentation scarched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) EpoDoc, WPI, PAJ

See patent family annex.

- Special categories of cited documents:
- "A" document defining the general state of the art which is not considered to be of perticular relevance
- "E" carlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other
- "P" document published prior to the international filing date but later than the priority date claimed
- "I" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention carmot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person Ekilled in the art
- "&" document member of the same patent family

Date of the actual completion of the international search
11 April 2006 (11.04.2006)

Dresdner Straße 87, A-1200 Vienna
